# April 2018 Software and Services Catalog

*All prices are in US dollars.*

## AMS REALTIME Enterprise

**AMS REALTIME Enterprise** is most often implemented as a client/server solution for multiple users with different roles and access rights.

It can be run standalone for a single user. No special hardware or external database is required. TCP / SSL / HTTPS

**Part No. AMS-RTES**  
Server software license starts at \$3260, and full-use client licenses start at \$1830 each.

Call for a price quote; quantity discounts and other modifications apply.

**AMS REALTIME Enterprise** is a high-end project resource management software application that is highly configurable, powerful, but very easy-to-use and maintain. It provides similar functionality to other high-end applications at a fraction of the cost.

This software supports Portfolio Management, Project Management, Resource Management, basic costing and earned value, integrated timesheets, status reporting, Monte-Carlo Risk Analysis, graphic and tabular reporting, and custom integration with MS Office and other external applications via a fully documented and secure Python Applications Programming Interface (API).

AMS can also provide initial implementation consulting to help define and document processes, configure and setup the database, train users, and provide ongoing support to ensure that the software meets user expectations and requirements.

**Sample License Pricing:**  
Client/Server for 3 full users and 2 executive review users = \$10,940  
Client/Server for 10 full users = \$19,410

The first year of maintenance and support is included with any new license. Optional annual maintenance and support after the first year is 20% of the list price.

# AMS REALTIME Projects

**AMS REALTIME Projects** is a file-based legacy project management software that has been in use since 1990.

Standalone or concurrent licensing is available. Project data is stored in files, but can be opened multi-project.

**Part No. AMS-RTP**  
Standalone software license starts at \$2095, concurrent licenses start at \$3145.

Call for a price quote; quantity discounts and other modifications apply.

**AMS REALTIME Projects** is a file-based project management software application that has been in use across a diverse blend of industries since the 1990s. Even though the Enterprise software is more powerful and capable, Projects has a strong and loyal user base that loves the software and doesn't want to change.

This software has excellent project management, network tools, resource management, critical path tools, project cost and earned value tracking features, and beautiful graphic reporting capability. Data can be imported and exported via text files, or to MS Office applications via a fully documented and secure Python Applications Programming Interface.

AMS can provide you with initial implementation consulting to help define and document your processes, configure and setup the database, train your users, and can also provide ongoing support to ensure that your software meets expectations.

**Sample License Pricing:**

7 standalone users (named) = \$14,665  
3 concurrent users (floating) = \$ 9,435

The first year of maintenance and support is included with any new license. Optional annual maintenance and support after the first year is 20% of the list price.

## Annual Maintenance and Support

The first year of maintenance and support is included with any initial software license purchase. If additional licenses are added to an existing serial number, the support for the new licenses will be prorated to synchronize support expiration with the existing licenses. Annual maintenance and support is priced at 20% of the current software purchase price (AMS-MS). This includes telephone hotline support, web forum access, maintenance releases and software upgrades for the licensed products.

Upgrade pricing for users with software that has expired within five years, reactivating maintenance and support is 25% of the current software price (append U to software part number). For less than annual support billing, add 5% of the cost (minimum \$5, maximum \$50) to the unit price per billing.

---

## Returns and Exchanges

To return the software for a full refund of the purchase price, return the unopened software envelope within 30 days to Advanced Management Solutions, PO Box 1492, Yucaipa, CA 92399-2435. To exchange your current AMS REALTIME software for a different AMS REALTIME product, contact your AMS Sales Representative for options. A \$50 exchange fee will be charged to cover license and control file reissue and administrative costs.

---
